Washington, D. C. 20505

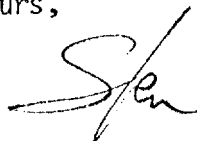

15 August 1978

MEMORANDUM FOR: Vice Admiral Robert R. Monroe, USN
Director, Defense Nuclear Agency

SUBJECT: Monitoring a Comprehensive Test Ban

Attached is a study on the monitoring of a CTB prepared by the intelligence community's Resource Management Staff. I thought it was a good summary of the problem and that you might like to see it. As always, I'd appreciate any views you have on it.

Yours,

STANSFIELD TURNER
